The biggest joke that ever over the origin to Artemus Ward is the claim of the Illinois woman who says she married the humorist a year before he was born, and who now wants his estate.

A newspaper made at Jeffersonville, Ind., says a gang of colored boys, none of them over 12 years old, stole a locomotive from the railroad yard there and then tried to sell it to a junk dealer for old metal.

SOME excitable Frenchmen evidently have been telegraphing from St. Petersburg, a hysterical defense of the Czar's treatment of the Jews and of his policy generally. This is probably one of the first results of the closer alliance between France and Russia.

PROF. ELY figures that it costs \$100,000,000 per year to support the world's poor sent over to this country without ability to provide their own subsistence. If Italy should drop the acquaintance, there would be a large saving in this quarter, provided Italy retained its contribution.

The Hindoos are about to adopt a modern notion in forming a "Hindoo tourists' party" for visiting Europe, America, China, Japan and the states. The "Hindoo noblemen and gentlemen" who are invited to join the party are assured that they will be able to travel without violation of caste rules.

SINCE his indictment Chauncey M. Depew has thoroughly explored the Fourth Avenue Tunnel in New York to ascertain its exact condition. A detective has been sent in order and might have wandered off the catastrophe.

MRS. GEORGE GOULD says she supposes her babies are just like other people's babies. Mrs. Gould is somewhat eccentric. The mother who doesn't think her babies a little better and more beautiful, and more cunning than anybody's else, is too funny for anything.

A PITTSBURGH Justice has handed down the important decision that a man cannot kiss his female typewriter without her consent. It is already known that under social and domestic law he cannot perform this courteous act without his wife's consent, and it seems to be rather poor picking for the men.

QUEEN VICTORIA can stick a stocking, make a pie, snub a Cabinet Minister, brew her tea, give Albert Edward a wigging, trim a rosebush, make a maid of honor tired and mix her own night-cap just as readily as she can read her own speech the morning after the Lord Chancellor has read it from the throne.

CARDINAL LAVIGIER is to take a band of warrior monks from France to Africa to engage in a crusade against slavery. They will all go armed, so that the heathen who expects to make a meal of the missionaries, are likely to discover that the new brand is a very unpleasant variety to encounter.

A STOREKEEPER at Glenmore, Montgomery County, Pennsylvania, recently had two dozen boxes of axle grease stolen from his place, and making an investigation traced the theft to some Hungarians employed in a neighboring quarry. He visited their huts one day, and was shocked to find a box of his axle grease on the table and the Hungarians eating it out of their bread in the place of butter with great gusto.

P. T. BARNUM, the great showman, was not only himself abstain from intoxicating drinks, but he was also a strong advocate of temperance. He used, in the days when the lecturer flourished, to lecture on temperance. He was once in the course of an address interrupted by someone, who shouted out: "How does whiskey affect a man, externally or internally?" The quick reply was: "Externally."

SOME writers in one or two of the English papers have again pointed out the fallacy of the very common idea that melted snow is an ideally pure water. The reverse of this is true. So far from being pure, snow is, practically, a great purifier of the atmosphere from floating particles and noxious gases. These, the flakes of snow absorb, and, as they fall, and, as a matter of course, when the snow melts it is loaded with this rubbish.

It is an axiom that he who looks well to his own affairs will look after those of the public when elected to office. In a certain sense this is true; however, a man can look after his own affairs with such intense absorption that he cultivates a chronic disregard for the interests of others. When such a man comes out of his shell long enough to take a public office, in nine cases out of ten he will convert the position to his personal ends.

A PLEETRY fair article of strictly pure maple molasses made from the sap of the soft maple has been put on the market. It takes a great deal of this sap to make a gallon of sirup, and the finished product is not up to the Vermont grade. The soft maple is abundant and its sap flows freely, and the saving in the wear and tear of conversion effected by its use in connection with a "strictly pure" label ought to compensate for some financial disadvantages.

IMMENSE swarms of locusts are devastating Northern Africa. Flights of them extend for miles. A rich crop of green is perceived by them as soon as it is reached, and down comes the vast swarm to devour even the last blade of grass. It is impossible for them to remain stationary, as the need of food impels them onward from one point to another. From November to the present date they have thus been progressing northward, and at last advances they infested the city of Morocco and all the country round.

Raising a Goat Beard.

"I've seen a good many strange sights," said a passenger on a ferry-boat recently, "but that is one of the strangest. There is a young man, evidently a law student, who, instead of raising mustaches and beard, is doing what I never saw a young man do."

"What, I mean by a goat beard?" "Elderly judges, clergymen of the Methodist and Baptist churches and farmers, raise them—beards without mustaches. In my mind the term 'goat beard' alone describes 'em. I never knew before that they grew. I thought they came, like death, but the young man, that's the first man I ever saw deliberately raising a 'goat beard,' but I'll bet it will be the last." The young man was tall and slender, and wore a white tie, though he was evidently a law student, but he certainly did possess a "goat beard," because it is unusual to find a young man with such an adornment, he attracted some attention—and, truth to say, the "goat beard" was a Philadelphia Philistine.

Not Right.

Those who undertake to correct the speech of their fellow-mortals sometimes get unexpected results.

"Bridget," said a young housekeeper, who was somewhat fresh from college, "it would be useless for me to discuss the fact that your ignorance of grammar is very marked. Let me try to correct you. For instance, 'Bridget, you've been a-settin' in the draw-room'?"

"No, ma'am," said Bridget, frankly, "I don't know nothin' 'bout no 'settin' in the draw-room. I know it's not right, but I were only a-settin' there the matter of a half-hour or so, and my cousin Terence, who is a lawyer, he says that a young girl has been a-tattin' in the draw-room."

Well, that's the first break I ever made remarked the bright young chicken as she shuddered.

HOW THE VIOLETS COME.

I know—blue, mottled violets, gleaming with dew at morn—
I know the place you come from
And I know that you are born
When God cuts holes in Heaven.
The holes the stars look through,
He lets the scraps fall down to earth—
The little scraps are you.

THE DIAMOND.

E are at the table still, a dozen convivial spirits, around in the act of drinking a cup of coffee which terminated nine at a dinner without ceremony, it is true, but exquisite in its simplicity and ordered with a science perfect. We complimented our hostess. From that we came to the subject of cooking, when the conversation turned. They spoke of politics and the end of the talk, after having exchanged ideas more or less commonplace on art, literature and the question of marriage, we came, by a natural transition, to speaking of dowries, wedding presents, silver plate, and diamonds.

"I like the pearl better than the diamond," said a lady sitting near me.

"I, your hostess, 'I prefer the diamond, and I have my reasons for it."

"All a story!" said one of us. "Tell it."

"Would you like to hear it?" asked our hostess.

"Yes, yes, the story!" said a chorus of voices at the table.

"Be— but I pass the betting on to my husband."

"I take it," said Henry Marbel, our host, and he commenced:

"I was young at that time, free in my hours, and amused myself during my hours of leisure, the more so as my day's work was entirely at the office, of Mr. Durand, notary—a very exacting, very strict—no party very exacting, very strict—who demanded of his clerks not only a zeal all the time but also a serene and dignified behavior."

"I had been to supper with a number of friends, and I was staying there to laugh and to drink, when the clock struck 2. I judged it seasonable for me to return to my home. It was a beautiful night. I thought that a long walk would be good for me, and I went out. I was very much surprised to find my nerves which were a little excited. I was directing my steps, then, very slowly toward home, having descended Males Aubres Boulevard, when, arriving at the top of St. Augustine, I saw something at my feet which shone very brightly. I stooped and picked up the object. It was a diamond, and I was very much surprised to find it was a diamond, and of great value, certainly."

"Well, thought I, this is a discovery! Why has the jewel been lost here? I was alone, and I was very much surprised to find it was a diamond, and of great value, certainly."

"The windows of the third story of the house in front of which I found myself were brilliantly lighted. I listened and heard the sound of an orchestra. Besides there was a file of carriages stationed in front of the door. Without doubt there was a party there, and I was very much surprised to find it was a diamond, and of great value, certainly."

Friday of pneumonia, aged 10 months.

insolvent, which was to have occurred
on Wednesday, has been postponed
until next Monday morning at 10 a. m.

to register for the spring election.

session on that day from 9 a. m. to 9

get to register.

The Ladies' Sewing Society of the
Norwegian Lutheran church will give
a festival at the church on Seventh
street south, on Saturday evening. A
very pleasant time will be enjoyed
and all are invited.

Wm. Paine, Sr., has bought and
sold several pieces of real estate the
past few days, and expects shortly to
close a deal in which several thousand
dollars' worth of real estate will
change hands in Southeast Brainerd.

Geo. Mosher left Wednesday for
Cattaraugus Co., N. Y., where he will
visit his parents and other relatives
for about a month. It has been ten
years since Geo. left there and he
thought it was time he was going
back—Motley Register.

Work on Gergen's new lively barn
and on Gardner's and Kinkadee's new
brick blocks is now in progress, and
the merry ring of the carpenter's
hammer can be heard in various other
parts of the city, all of which has a
tendency to produce a bonanza of
spirit in the average citizen. Let the
good work go on.

Wm. Sauntry, of the Weyerhaeuser
syndicate, said in St. Paul the other
day that only about 10,000,000 would
be manufactured by the Weyerhaeuser
company at Little Falls this year,
while the new mill was being built.
He intimated further that a mill
further down the stream was among
the possibilities.—Lumberman.

An engine came up from Brainerd
yesterday morning that covered the
entire distance, in 35 minutes.
It brought Dr. Camp, who was called
in consultation with Dr. Ellis on the
case of Conductor Fred Knowles's
child, and although the physicians
did all in their power to relieve the
little sufferer, she passed away yester-
day afternoon.—Presto Change.

H. J. Spencer, president of the First
National Bank, of Brainerd, was in
the city last Wednesday, his object
being to make a proposition to the
county commissioners for the custody
of the county funds. The funds are
at present deposited in the Merchants'
National Bank of St. Paul, which in-
stitution allows the county interest at
2 per cent. per annum on daily
balances. Mr. Spencer, for his bank,
offers to give a satisfactory indemnity
bond and pay a per cent. on daily
balances. The same proposition will
be made to the village council at their
next meeting for the village funds,
and it is likely that the offer will be
accepted by both bodies.—Aitkin Age

Dan Caffery came down from Grand
Rapids the first of the week.

Peter Fisher died at the poor farm
last Friday of heart failure. He was
32 years old.

The Grand Rapids Eagle says:
County Treasurer Beckfelt has select-
ed H. D. Powers as his deputy. The
right man in the right place.

Several members of the Ladies'
Auxiliary of Brainerd Division No.
144, B. of L. E., went to Staples last
evening to attend a social at the re-
sidence of Mr. C. H. Hodge in that
village. A very pleasant time is re-
ported.

The Arlington hotel of this place
has changed hands. Mr. R. R. Wise,
who has so ably conducted it since it
was opened, retired on Thursday, and
he is succeeded by Miss Nellie Ward.
Mr. Wise will still run the eating
house and lunch counter.—Presto
Change.

Alderman William and wife, of
East Brainerd, have been sorely
afflicted the past few days by the
death of their little daughter, Lillie,
aged 17 months, who died Wednesday
evening of bronchial pneumonia. The
funeral services occur this afternoon
from the residence of the parents on
Third Ave.

We don't believe the council at the
present time should consider putting
in a new sewer on Main or Kingwood
street, from Eighth street to the river,
unless the property owners benefited
are willing to bear the expense almost
entirely. The city is in debt enough
now. And it seems to us if the coun-
ty commissioners want sewer connec-
tions for the court house and jail, the
county should bear at least half of the
expense of extending the main from
the Arlington Hotel.

A Meritorious Company.

The May Louise Aigen Co. are play-
ing a week's engagement at the opera
house this week, thus far to moderate
sized houses. On Monday night the
company presented "Shaughraun," on
Tuesday evening "Confusion," on
Wednesday evening "Camille," and
last night the "Two Orphans" was
presented. Miss Aigen is an emotional
actress of considerable force and
ability, and is supported by a fairly
strong company. Mr. F. C. Huebner,
the manager, and Mr. C. H. Truesdell,
being much above the average. The
company is well worthy of patronage,
especially considering the low prices
of admission, 10, 20 and 30 cents. To-
night the company will present "The
Banker's Daughter," and to-morrow
afternoon a grand family matinee will
be given, on which occasion will be
presented "The Private Secretary."

To-morrow night the bill will be "A
Wife's Honor, or Murphy Maguire."

We hope the three remaining per-
formances will be better patronized.
On Saturday night a magnificent silk
plush sofa, which can be seen in Wm.
Hack's show windows, will be given
away.

Died.

Smith—At the N. P. Sanitarium, in
this city, on Saturday morning,
April 18th, 1891, of pneumonia, Mr.
Alfred Smith, aged 43 years.

The deceased was an employee of
the railroad company, holding a posi-
tion in the car department at the
shops. He has been a resident of this
city for several years, living with his
family on Eighth street south. He
leaves a wife and four children to
mourn his loss. He was buried on
Sunday in Evergreen Cemetery, the
funeral services occurring at his
residence. His remains were follow-
ed to their last resting place by a
large number of friends and fellow-
workmen.

Dramatic Reader.

Miss Marion Willis, late of Boston,
Mass., will give one of her superb en-
tertainments at the M. E. church in
this city to-morrow (Saturday) evening.
A competent critic says of her:
"Every recitation given by this
versatile lady is an artistic gem, and
sways the keyboard of human feel-
ings with a master's hand, holding an
audience with a growing fascination
by her magnetic presence and won-
drous dramatic genius. Those who
hear her once are anxious to hear her
again, and she is invariably solicited
to duplicate her engagement."

Tenth Annual Ball.

Pine City Lodge No. 81, B. of L. E.,
will give their 10th annual ball at the
roller rink on Tuesday evening, May
25th. No pains are being spared by
the members of the lodge to make
this a more brilliant and enjoyable
affair than any similar occasion in the
past, if such a thing is possible. The
rink will be elaborately decorated and
the best of music will be secured.
Tickets \$1.

teacher's examination will be held at

Republican City Convention.

The republican voters of the City
of Brainerd are practically unanimous
in the opinion that party nominations
should be made at our city elections.
The Brainerd Republican Club, be-
lieving that the proper scope of the
state and local leagues is to strengthen
the republican party organization,
and to promote, by all legitimate
agencies, the republican party, its
principles and candidates, thereby
exerting the most potent influence in
behalf of good government, in the
absence of a regularly authorized
committee has, at the urgent solici-
tation of many representative republi-
cans, called a city convention, to be
held at the City House, on
Monday evening, April 27th, at 8
o'clock, for the purpose of placing in
nomination candidates for Mayor,
Treasurer, Judge of Municipal Court,
Associate Judge, and Assessor, respec-
tively, and for the transaction of such
other business as may demand atten-
tion.

The representation in said conven-
tion will be the same as given the
different wards in the last republican
city convention, held July 2, 1890,
and one additional delegate from each
ward, viz:

First Ward, . . . 4 Second Ward, . . . 5

have the cost of the same charged to

was occupied in considering the mat-
ter of putting in a sewer on Main

Victoria's Love for Babies.

Queen Victoria's love for babies by
no means diminishes with her ever-
increasing number of grandchildren.
Indeed, the latest addition to her
royal family always demands her
special interest, and at the present
moment it is the new baby of the Duke
and Duchess of Sparta, her majesty's
latest great-grandson, for whom she
exhibits the greatest solicitude. A
magnificent cradle has just been dis-
patched by his royal great-grand-
mother to the infant, over whose out-
fit the Queen and the Empress, Fred-
erick spent many hours during the
latter's sojourn here some weeks ago.
By the earnest request of the Queen,
the Duke and Duchess of Sparta, will
take the baby over to England to see
the queen this month, and the
princess Sophie, mother-like, is
doubtless only too proud of the op-
portunity to display her treasure to
her English relatives.

A Paste Which Will Stick Anything.

A paste which will stick anything is
said by Professor Wachel to be made
as follows: Take two ounces of clear
gum arabic, one and a half ounces of
fine starch, and half an ounce of white
sugar. Dissolve the gum arabic in as
much water as the launress would
use for the quantity of starch indicated.
Mix the starch and sugar with the
mudlage. Then cook the mixture in a
vessel suspended in boiling water un-
til the starch becomes clear. The
cement should be as thick as tar, and
kept so. It can be kept from spoiling
by the addition of camphor or a
little oil of cloves.

Winning Academic Honors.

Among the other recent academi-
cal triumphs of English women must
be included that of Miss Ann Frances
Piercy, of the London school of Medi-
cine for Women. At the intermediate
examination in medicine in the univer-
sity of London she gained triple first
class honors, taking first place, with
exhibition, and a gold medal, in
material medica, and second place,
with a gold medal, in anatomy. Miss
Piercy also excelled in physiology and
histology and was bracketed equal with
two male candidates for the first
class.

High-Priced Clergymen.

Dr. M. W. Taylor of New York is
paid \$15,000 a year, the largest salary
paid to any Congregational minister.
Three in Brooklyn, viz. Drs. Lyman
Abbott, Storrs, and Behrens, receive
\$10,000 each. Dr. Gussulius of Chi-
cago has salary of \$8,500 and Dr.
Gregg of Boston \$7,000.

The Pintech System of Lighting Pas-
senger Trains with Gas.

The Pintech system of lighting by
means of compressed gas is pronounced
by competent judges to be the
best known means of car illumination.
It is safe under any and all circum-
stances. It is not affected by atmos-
pheric changes. Burns more steadily
than any other light in use. Although
very brilliant it is soft and agreeable.
It emits no smoke, is odorless and
perfectly clean.

It is so effective and evenly distrib-
uted that travelers in any part of the
car can read easily and comfortably.
It is simple in operation, absolutely
reliable and of constant quality.

Although this system has been in
use on some of the leading lines in
the East and in Europe for some time,
the credit of first introducing it in the
northwest belongs to "The North-
western Line"—C. St. P. & O.
Railway.

The vestibuled trains on this line,
leaving Minneapolis at 6:50 p. m., St.
Paul, 7:30 p. m., daily, for Chicago
and Milwaukee, are lighted through-
out with this gas.

In addition to the superior arrange-
ment and comfort of the sleeping cars
on the vestibuled limited, this bril-
liant light adds to the appearance of
the car, and passengers have ex-
pressed themselves as delighted with
this method of lighting.

The Chicago, St. Paul, Minneapolis
& Omaha Company is now construct-
ing a plant in Minneapolis for the
Manufacture of Pintech Gas in order
to supply the entire passenger equip-
ment.

No line keeps its equipment more
completely up to the latest standard
than does "The North-Western Line,"
and it has never failed to provide any
improvement likely to add to the
comfort, safety or pleasure of through
travel.

Next Tuesday will be the last day to register for the spring election. The board of registration will be in session on that day from 9 a. m. to 9 p. m. If you want to vote don't forget to register.

The Ladies Sewing Society of the Norwegian Lutheran church will give a festival at the church on Seventh street south, on Saturday evening. A very pleasant time will be enjoyed and all are invited.

Wm. Paine, Sr., has bought and sold several pieces of real estate the past few days, and expects shortly to close a deal in which several thousand dollars' worth of real estate will change hands in Southeast Brainerd.

Geo. Mosher left Wednesday for Cattaraugus Co., N. Y., where he will visit his parents and other relatives for about a month. It has been ten years since Geo. left there and he thought it was time he was going back.—Motley Register.

Work on Gergen's new lively barn and on Gardner's and Kunkle's new brick blocks is now in progress, and the merry ring of the carpenter's hammer can be heard in various other parts of the city, all of which has a tendency to produce a buoyancy of spirit in the average citizen. Let the good work go on.

Wm. Saunty, of the Weyerhaeuser syndicate, said in St. Paul the other day that about 10,000,000 would be manufactured by the Weyerhaeuser company at Little Falls this year, while the new mill was being built. He intimated further that a mill further down the stream was among the possibilities.—Lumberman.

An engine came up from Brainerd yesterday morning that covered the entire distance, 30 miles, in 35 minutes. It brought Dr. Camp, who was called in consultation with Dr. Ellis on the case of Conductor Fred Knowle's child, and although the physicians did all in their power to relieve the little sufferer, she passed away yesterday afternoon.—Aitkin Age.

H. J. Spencer, president of the First National Bank, of Brainerd, was in the city last Wednesday, his object being to make a proposition to the county commissioners for the custody of the county funds. The funds are at present deposited in the Merchant's National Bank of St. Paul, which institution allows the county interest at 2 per cent. per annum on daily balances. Mr. Spencer, for his bank, offers to give a satisfactory indemnity bond and pay 4 per cent. on daily balances. The same proposition will be made to the village council at their next meeting for the village funds, and it is likely that the offer will be accepted by both bodies.—Aitkin Age.

Dan Caffery came down from Grand Rapids the first of the week.

Peter Fisher died at the poor farm last Friday of heart failure. He was 82 years old.

The Arlington hotel of this place has changed hands. Mr. R. H. Wise, who has so ably conducted it since it was opened, retired on Thursday, and he is succeeded by Miss Nellie Ward. Mr. Wise will still run the eating house and lunch counter.—Presto Change.

Alderman William and wife, of East Brainerd, have been sorely afflicted the past few days by the death of their little daughter, Lillie, aged 17 months, who died Wednesday evening of bronchial pneumonia. The funeral services occur this afternoon from the residence of the parents on Third Ave.

We don't believe the council at the present time should consider putting in a new sewer on Main or Kingwood street, from Eighth street to the river, unless the property owners benefitted are willing to bear the expense almost entirely. The city is in debt enough now. And it seems to us if the county commissioners want sewer connections for the court house and jail, the county should bear at least half of the expense of extending the main from the Arlington Hotel.

A Meritorious Company.

The May Louise Aigen Co. are playing a week's engagement at the opera house this week, thus far to moderate sized houses. On Monday night the company presented "Shanghaan," on Tuesday evening "Confusion," on Wednesday evening "Camille," and last night the "Two Orphans" was presented. Miss Aigen is an emotional actress of considerable force and ability, and is supported by a fairly strong company. Mr. F. C. Haebner, the manager, and Mr. C. H. Truesdell, being much above the average. The company is well worthy of patronage, especially considering the low prices of admission, 10, 20 and 30 cents. To-night the company will present "The Banker's Daughter," and to-morrow afternoon a grand family matinee will be given, on which occasion will be presented "The Private Secretary." To-morrow night the bill will be "A Wife's Honor, or Murphy Maguire." We hope the three remaining performances will be better patronized. On Saturday night a magnificent silk plush affair, which can be seen in Wm. Hack's show windows, will be given away.

Died.

Dramatic Reader.

Miss Marion Willis, late of Boston, Mass., will give one of her superb entertainments at the M. E. church in this city to-morrow (Saturday) evening. A competent critic says of her: "Every recitation given by this versatile lady is an artistic gem, and sweeps the keyboard of human feelings with a master's hand, holding an audience with a growing fascination by her magnetic presence and wondrous dramatic genius. Those who hear her once are anxious to hear her again, and she is invariably solicited to duplicate her engagement."

Tenth Annual Ball.

Pine City Lodge No. 81, B. of L. E., will give their 10th annual ball at the roller rink on Tuesday evening, May 25th. Republican City Convention.

The republican voters of the City of Brainerd are practically unanimous in the opinion that party nominations should be made at our city elections. The Brainerd Republican Club, believing that the proper scope of the state and local leagues is to strengthen the republican party organization, and to promote, by all legitimate agencies, the republican party, its principles and candidates, thereby exerting the most potent influence in behalf of good government, in the absence of a regularly authorized committee has, at the urgent solicitation of many representative republicans, called a city convention, to be held at the City Hose House, on Monday evening, April 27th, at 8 o'clock, for the purpose of placing in nomination candidates for Mayor, Treasurer, Judge of Municipal Court, Associate Judge, and Assessor, respectively, and for the transaction of such other business as may demand attention.

The representation in said convention will be the same as given the different wards in the last republican county convention, held July 2, 1890, and one additional delegate from each ward, viz:
First Ward, 4 Second Ward, 5
Third Ward, 3 Fourth Ward, 3
Fifth Ward, 3

The ward committees are requested to call ward caucuses without delay, to elect delegates to the city convention, and at the same time nominate candidates for aldermen. There are also four members of the School Board to elect, viz: One from the Second Ward, one from the Third Ward, and two from the Fifth Ward. All voters in sympathy with the principles of the republican party, and supporters of its candidates, are earnestly requested to attend their ward caucuses, and participate in the proceedings.

The Pintech System of Lighting Passenger Trains with Gas.

The Pintech system of lighting by means of compressed gas is pronounced by competent judges to be the best known means of car illumination. It is safe under any and all circumstances. It is not affected by atmospheric changes. Burns more steadily than any other light in use. Although very brilliant it is soft and agreeable. It emits no smoke, is odorless and perfectly clean.

It is so effective and evenly distributed that travelers in any part of the car can read easily and comfortably. It is simple in operation, absolutely reliable and of constant quality.

Although this system has been in use on some of the leading lines in the East since the Twenty-first (21) day of March, 1891, for some time, the credit of first introducing it in the northwest belongs to "The North-Western Line"—C. St. P. & M. & O. Railway.

The vestibule trains on this line, leaving Minneapolis at 6:50 p. m., St. Paul, 7:30 p. m., daily, for Chicago and Milwaukee, are lighted throughout with this gas.

In addition to the superior arrangement and comfort of the sleeping cars on the vestibule limited, this brilliant light adds to the appearance of the car, and passengers have expressed themselves as delighted with this method of lighting.

The Chicago, St. Paul, Minneapolis & Omaha Company is now constructing a plant in Minneapolis for the manufacture of Pintech Gas in order to supply the entire passenger equipment.

No line keeps its equipment more completely up to the latest standard than does "The North-Western Line" and it has never failed to provide any improvement likely to add to the comfort, safety or pleasure of through travel.
